Carolyn,

The attached draft figure shows the approximate locations of each well. Still need to have them surveyed in with precise locations, but this should give you a pretty close estimate of their locations.

Thanks,
 Chris

So [Ex. 6 Personal Privacy (PP)] was a backup all along or were two additional placed on the property?

So were the sampling locations adjusted at [REDACTED] or were wells added to compensate for the private landowner who denied access?

Thx.

Thanks Chris,

Do you know whether the GW sampling where you had access was completed last week?

Based on the results from the 2 sampling events completed at this residence, we would not recommend any additional activities related to [REDACTED] at this time.
